

## USER AGREEMENT FOR THE FOUR-PORT MEASUREMENT SOFTWARE

Please read the following User Agreement carefully before installing or using the four-port measurement software. By installing or using the four-port measurement software, you agree to be bound by this user agreement.

The four-port measurement software is provided to you or your company (the USER) by the National Institute of Standards and Technology (NIST), an agency of the U.S. Department of Commerce, Gaithersburg MD 20899, USA. The four-port measurement software bears no warranty, either express or implied. NIST does not assume legal liability nor responsibility for a USER's use of NIST-derived, four-port measurement software or the results of such use.

The four-port measurement software contains work which was created by Government employees and is therefore not subject to copyright. The four-port measurement software was created with partial funding from the NIST/Industrial MMIC Consortium. Under consortium rules, only Consortium member companies and their staff may use this software for the first year, at which point it reverts to NIST and may be released to other users. The USER agrees to be bound by this condition. The USER fully understands and agrees that any modification or selling of the four-port measurement software or any associated documentation, including but not limited to the contents of this document or the four-port measurement User's Manual, is strictly prohibited.

USER shall not use the name of NIST or the Department of Commerce on any advertisement, product or service which is directly or indirectly related to the four-port measurement software or associated documentation without the prior written approval of NIST. NIST does not directly or indirectly endorse any product or service provided, or to be provided, by USER, its successors, assignees, or licensees. USER shall not in any way imply that the results obtained from USER's utilization of the four-port measurement software are an endorsement of these results or any such product or service.

The authors of the Four-port measurement software request all USERS to acknowledge NIST in the publication of any results obtained using the four-port measurement software. A list of appropriate citations are listed in the four-port measurement User's Manual.

In order to obtain updates to the four-port measurement software and related documentation from NIST, USERS must register their copies of the software by contacting the authors or their designees.
